

## LOG MARKETING POLICY

Powell River Community Forest (PRCF) will offer logs for sale according to the following priorities:

1. **First Priority** – Support of new and existing local Powell River wood industries. In this case, PRCF will offer logs (by the truckload) of suitable sorts to local parties at fair market prices with consideration for potential savings in costs associated with the local sale. Most of our local demand is for Red Cedar which is a minor component of our profile.
2. **Second Priority** – Support of domestic based industry. Most of our log sales to date have been to the broader domestic market.
3. **Third Priority** – Logs surplus to local and domestic requirements will be available for export outside of BC and Canada. Historically log exports have involved very minor volumes – usually lower value timber.

The longer-term objective is to proactively foster the development of local wood manufacturers so that the Community Forest values are enhanced.
